- H. Technical Proposals shall include all necessary elements from the Statement of Work and the price proposal shall include all technical and price elements.

2.4 SOLICITATION

- A. The Solicitation constitutes the basis on which Buyer may make an award. The Offeror shall insert the necessary information in all blanks on the Solicitation. Any proposals not submitted in accordance with the Solicitation may be considered nonresponsive.
- B. Unless otherwise requested, the Offeror is to propose price and upon their normal work week. In addition, the Offeror is to specify basis of normal work week (i.e., number of days/week and number of hours/day).

2.5 GOVERNMENT INDUSTRIAL FACILITY AND TOOLING CERTIFICATION

The Offeror shall include with the proposal a completed "Government Industrial Facility and Tooling Certification," wherein certification is made that in the performance of this work, supplier shall not use any equipment or industrial facilities owned by the Government without prior approval.

2.6 ACQUIRED PROPERTY AND MATERIAL ESTIMATE

An Acquired Property and Material Estimate shall be completed and properly executed and included with Offeror's proposal. If Offeror includes the estimated costs of such items in the proposal, the provision entitled "Government Property," shall be a part of any resulting Subcontract. If Offeror includes the cost of such items in Offeror's proposal, the Offeror shall identify each item or items and estimated cost thereof, so that Buyer can determine whether to purchase all or any part of such items as a Subcontract line item or on such other terms as are mutually agreeable.

2.7 LOWER-TIER SUPPLIER QUALITY ASSURANCE INFORMATION

The Offeror shall identify all prospective lower-tier suppliers for goods and/or services covered by this Solicitation with a specific quality assurance standard, except for those supplying items shown in below paragraph (A). Division, affiliates, or subsidiaries of the Offeror's company shall be included if they provide materials or services applicable to this inquiry.

Mission Support Alliance – INSTRUCTIONS FOR THE PREPARATION OF PROPOSALS

- A. Raw materials (other than castings, forgings, tubing, special materials and weld filler material), standard hardware items (other than primary closure parts such as studs, nuts, and gaskets) and standard commercial supplies need not be included on the form. All other subcontracted or purchased services and materials shall be included.
- B. Upon Buyer request, the Offeror shall provide copies of quality audit correspondence, which identifies lower-tier Subcontractor problems, resolutions, or commitments for corrective action.
- C. If a Subcontract is awarded, the identified lower-tier supplier listing will become part of the Subcontract. Any additions to or changes from this listing will require Buyer approval.

2.8 COST OR PRICING DATA IN GENERAL

Offerors *may* be required to provide Cost or Pricing Data prior to award, unless the Subcontract is determined by the Buyer to be exempt from the requirements of Public Law 87-653 (10 USC Sec. 2306a).

2.9 REQUIRED PRICE SUPPORT INFORMATION

NOTE – This clause applies to solicitations up to \$750,000.00. If the acquisition is expected to exceed \$750,000.00, then refer to the next clause below titled, “Requirements for Supporting Price Information and/or Certified Cost or Pricing Data.”

The Subcontractor is required to submit information sufficient to determine that the prices or costs being charged are fair and reasonable. Such information may include pricing, sales, or cost information that is pertinent to establishing the pricing or costs being charged.

Certified cost or pricing data need not be submitted when:

- A. Pricing is controlled, by law or regulation, by periodic rulings, reviews, or similar actions of a governmental body.
 - 1. To qualify for this exemption, Subcontractor will need to submit the controlling document establishing the price offered.
- B. Commercial* items as defined in [FAR 2.101](#).
 - 1. To qualify for this exemption, Subcontractor will need to submit, at minimum, information on prices at which the same item or

 - Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;
 - b. For market-priced items - the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market;
 - c. For items included on an active Federal Supply Service Multiple Award Schedule contract - a copy of the appropriate pages for the offered items, Schedule cover page, terms and conditions, unless already on file with the contracting office.
- C. Additional supporting information, to the extent necessary to determine whether the price is fair and reasonable.

The Subcontractor grants the Buyer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify the reasonableness of the price. 8. As soon as practicable after final agreement on price or an earlier date agreed to by the parties, but before the award resulting from the proposal, under the conditions stated in FAR 15.406-2, submit a Certificate of Current Cost or Pricing Data.

Cost Elements

- A. Depending on your system, provide breakdowns for the following basic cost elements, as applicable:
 1. *Materials and Services* - provide a consolidated priced summary of individual material quantities included in the various tasks, orders, or Subcontract line items being proposed and the basis for pricing (vendor quotes, invoice prices, etc.). Include raw materials, parts, components, assemblies, and services to be produced or performed by others. For all items proposed, identify the item and show the source, quantity, and price. Conduct price analyses of all Subcontractor proposals. Conduct cost analyses for all Subcontracts when cost or pricing data is submitted by the Subcontractor. Include these analyses as part of cost or pricing data submissions for Subcontracts expected to exceed the appropriate threshold in FAR 15.403-4. Submit the Subcontractor cost or pricing data as part of cost or pricing data as required in paragraph C. A. (2) of this table. These requirements also apply to all Subcontractors if required to submit certified cost or pricing data.
 - a. Adequate Price Competition - provide data showing the degree of competition and the basis for establishing the source and reasonableness of price for those acquisitions (such as Subcontracts, purchase orders, material order, etc.) exceeding, or expected to exceed, the appropriate threshold set forth at FAR 15.403-4 priced on the basis of adequate price competition. For inter-organizational transfers priced at other than the cost of comparable competitive commercial work of the division, subsidiary, or affiliate of the Subcontractor, explain the pricing method (see FAR 31.205-26(e)).
 - b. All Other - obtain cost or pricing data from prospective sources for those acquisitions (such as Subcontracts, purchase orders, material orders, etc.) exceeding the

Mission Support Alliance – INSTRUCTIONS FOR THE PREPARATION OF PROPOSALS

threshold set forth in FAR 15.403-4 and not otherwise exempt, in accordance with FAR 15.403-1(b) (i.e., adequate price competition, commercial items, prices set by law or regulation or waiver). Also provide data showing the basis for establishing source and reasonableness of price. In addition, provide a summary of cost analysis and a copy of cost or pricing data submitted by the prospective source in support of each Subcontract, or purchase order that is the lower of either \$12,500,000.00 or more, or both more than the pertinent cost or pricing data threshold and more than 10 percent of the prime contractor's proposed price. The Subcontracting Officer may require you to submit cost or pricing data in support of proposals in lower amounts. Subcontractor cost or pricing data must be accurate, complete and current as of the date of final price agreement, or an earlier date agreed upon by the parties, given on the prime contractor's Certificate of Current Cost or Pricing Data. The prime Subcontractor is responsible for updating a prospective Subcontractor's data. For standard commercial items fabricated by the Offeror that are generally stocked in inventory, provide a separate cost breakdown, if priced based on cost. For inter-organizational transfers priced at cost, provide a separate breakdown of cost elements. Analyze the cost or pricing data and submit the results of analysis of the prospective source's proposal. When submission of a prospective source's cost or pricing data is required as described in this paragraph, it must be included along with your own cost or pricing data submission, as part of your own cost or pricing data. Also submit any other cost or pricing data obtained from a Subcontractor, either actually or by specific identification, along with the results of any analysis performed on that data.

2. Direct Labor - Provide a time-phased (e.g., monthly, quarterly, etc.) breakdown of labor hours, rates, and cost by appropriate category, and furnish bases for estimates.
3. Indirect Costs - Indicate how Offeror has computed and applied Offeror's indirect costs, including cost breakdowns, and showing trends and budgetary data, to provide a basis for evaluating the

Mission Support Alliance – INSTRUCTIONS FOR THE PREPARATION OF PROPOSALS

reasonableness of proposed rates. Indicate the rates used and provide an appropriate explanation.

4. Other Costs - List all other costs not otherwise included in the categories described above (e.g., special tooling, travel, computer and consultant services, preservation, packaging and packing, spoilage and rework, and Federal excise tax on finished articles) and provide basis for pricing.
5. Royalties - If royalties exceed \$1,500.00, provide the following information on a separate page for each separate royalty or license fee: name and address of licensor; date of license agreement; patent numbers, patent application serial numbers, or other basis on which the royalty is payable); percentage or dollar rate of royalty per unit; unit price of Subcontract item; number of units, and total dollar amount of royalties. In addition, if specifically requested by the Subcontracting officer, provide a copy of the current license agreement and identification of applicable claims of specific patents. (See FAR 27.204 and 31.205-37).
6. Facilities Capital Cost of Money - If electing to claim facilities capital cost of money as an allowable cost, submit FORM CASB-CMF and show the calculation of the proposed amount (see FAR 31.205-10).

2.11 EXCEPTIONS AND ALTERNATE PROPOSALS

- A. Compliance with specifications and other requirements of this Solicitation is essential. Unless otherwise indicated by Offeror, his/her signature on his/her proposal shall indicate unqualified acceptance of all requirements including all the terms and conditions of the Subcontract, stated and referenced by this Solicitation. Interpretations established by the Offeror to any part of this Solicitation may be considered an exception. In case of doubt, Offeror should request clarification from Buyer.
- B. If there are any exceptions to the requirements of the Solicitation, the price offered should be based on the Solicitation's requirements and the exception(s) priced as alternates. If Offeror's proposal is based only on the proposed exceptions, it must be recognized that this may be grounds for a determination that such a proposal is non-responsive.

Mission Support Alliance – INSTRUCTIONS FOR THE PREPARATION OF PROPOSALS

- C. Any questions or requests for additional information relative to the Solicitation must be submitted in writing to the Buyer's representative responsible for issuing the Solicitation. Copies of replies to questions will be furnished to all Offerors.
- D. Buyer will evaluate any exceptions and determine whether the Offeror's proposal is acceptable, or whether it is non-responsive.

2.12 IDENTIFICATION OF PROPRIETARY DATA

- A. Offerors who include in their proposals any data that they do not want disclosed to the public for any purpose or used by Buyer or the Government except for evaluation purposes shall:
 - 1. Mark the title page of their proposal with the following legends:
 - a. USE AND DISCLOSURE OF DATA: "This proposal includes data that shall not be disclosed outside Buyer or the Government and shall not be duplicated, used, or disclosed - in whole or in part - for any purpose other than to evaluate this proposal. If, however, a Subcontract is awarded to this Offeror as a result of -- or in connection with -- the submission of this data, Buyer and the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting Subcontract. This restriction does not limit Buyer's nor the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets];" **and**
 - b. "Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal."

Mission Support Alliance – INSTRUCTIONS FOR THE PREPARATION OF PROPOSALS

3.6 PROPOSAL CHANGES

Any modification of a proposal, including the Contract Specialist's request for "Best and Final Offer," is subject to the same conditions as in the "Late Proposals" section above.

3.7 WITHDRAWAL OF PROPOSALS

Proposals may be withdrawn by written or electronic notice to the Buyer at any time prior to award. A Subcontractor, or its authorized representative, may withdraw proposals in person, provided their identity is made known and they sign a receipt for the proposal.

4.1 ADDITIONAL PREAWARD INFORMATION

As a result of the specific solicitation circumstances, additional preaward information may be necessary.

4.2 SOLICITATION CERTIFICATION

Mission Support Alliance, LLC ("MSA"), relies upon Subcontractor's current representations and certifications within the Federal System for Award Management (SAM) located at www.sam.gov. SAM is a Federal web-based system that centralizes and standardizes the collection, storage, and viewing of an Offeror's representations and certifications as required by the Federal Acquisition Regulations.

By submitting a proposal to MSA in response to this solicitation, the Subcontractor is certifying that:

- A. The representation and certification information within SAM is still current;
- B. All statements and explanatory documentation submitted is current and accurate;
- C. Signer is authorized to represent the Subcontractor in all matters related to pricing, terms and conditions, and conduct of business;

Mission Support Alliance – INSTRUCTIONS FOR THE PREPARATION OF PROPOSALS

- E. All Subcontractor employees who may work on MSA's premises or on the Hanford Site are not under the influence of controlled substances, drugs or alcohol. Subcontractor agrees to testing of assigned employees under the MSA's program for controlled substances;
- F. Subcontractor's information in the MSA's registration system is current (no more than 12 months old); and
- G. Subcontractor will update SAM on an annual basis.

4.3 CONFLICT OF INTEREST

It is the Buyer's policy to avoid situations, which place a Subcontractor in a position wherein it may not be able to compete on an equal basis for Buyer-controlled work with other qualified contractors. To address this matter, the Subcontractor is to consider the relevant circumstances surrounding this effort to determine if there are any past, present or future interests (financial, contractual, organizational or personal) that could be viewed as a conflict of interest. The Subcontractor is to insert the following statement into any proposal response to MSA:

- Subcontractor hereby certifies that [___] there is not or [___] there is a potential conflict of interest. If there are any real or potential concerns, they shall be disclosed and highlighted in the Subcontractor's proposal. Any such disclosure may result in the need for additional discussions relative to the Subcontractor's continued participation in this effort.

4.4 PREAWARD SURVEY

The Buyer reserves the right to conduct as appropriate a Preaward Survey of the Offeror to determine responsibility. The Buyer may request the services of Government agencies in obtaining the necessary preaward information.

- A. Preaward Equal Opportunity Compliance Reviews: Where the offer of an apparent low Offeror is in the amount of \$10 million or more, the Offeror and Offeror's known first-tier Subcontractors which will be awarded subcontracts of \$10 million or more, will be subject to full, preaward equal opportunity compliance reviews before the award of the Subcontract for the purpose of determining whether the Offeror and Offeror's Subcontractors are in compliance with the provisions of the Equal Opportunity Certification.

Mission Support Alliance – INSTRUCTIONS FOR THE PREPARATION OF PROPOSALS

4.6 COST ACCOUNTING STANDARDS

Depending on the specific solicitation circumstances, Cost Accounting Standards (CAS) requirements may require additional pre-award reviews dealing with disclosure statements. CAS requirements are flowed down in the General Provisions that are at the \$700,000.00 and above threshold. The FAR flowdown clauses set forth the requirements for administration of those Subcontracts that invoke CAS requirements and shall become a part of any resultant Subcontract.

5.0 CHANGES

Offeror's attention is directed to the fact that only the Buyer employees specified in the resultant Subcontract would have authority to make changes.
